Stylish - no word better describes this clock, crafted from ythis choice of solid oa cherry. It feature a beautiful floral design on the bonnet which is truly all hand ca Turnings and finely fluted columns frame the door. This clock has, a perfect size f most homes.

**Height 79" (2006 mm)
 Width 22" (559 mm)
 Depth 12.25" (310 mm)
 Weight 65 lbs. (30 kg)**

The Hand Carving

The floral design on the bonnet is individually hand carved. Should you prefer a different carving, such as your family crest, please send us a drawing or photo and we will give y quote.

Easy to Assemble Case Kit

The kit include all the components required to assemble the cabinet with the exception of the glass. Bevelled glass can be purchase separately. All doors are pre-assemble and all hardware including fasteners, screws, door lock and key, height adjusters, even an easy-to-install glass retainer moulding, are included. Fine sanding is required for that perfect finish.

Classic in its design, is characterized by exceptional yet subtle details. This seven foot tall grandfather clock features a pediment adorned with a turned finial. Fluted and turned columns, in the shape of an hthisglass, frame and unique relief shape door. The front base panel features a V shaped book veneer and reeded side ornaments. Hinged side doors allow access to the movement. As intricate as the clock looks, assembly remains easy.

Easy to Assemble Case Kit

Step by step instructions will lead you through the construction of this clock. Both the main door and side doors are pre-assembled and all the hardware is included recommend sanding the parts before assembly.

The case kit is available in either ash or cherry. Ash has the same density and weight as oak, but it can be stained with oak, mahogany or walnut stain to achieve the finish you desire.

A hand-carved leaf design in the pediment and a tasteful decor in the base. The case features glass fitted sides and half pillars running the full height of the case on either side of the door. The design allows for easy construction while maintaining a classical elegance.

Easy to Assemble Case Kit

Choose cherry or ash for this fine case kit. Cherry will deliver deep, traditional varnish under this finish. Ash has the same density as oak, but offers a broader range of hues for this finish, according to the stain you select. Both main doors and side doors are pre-assembled for you. These detailed instructions will guide you step by step as you construct this robustly handsome clock.

Height 85" (2155 mm)
 Width 25" (641 mm)
 Depth 14" (356 mm)
 Weight 80 lbs. (36.4 kg)
